SPECTACLE

"INDIA"

There are places whose names evoke colour and exoticism. Destinations that invite you to travel and delve into new ways of seeing and feeling Life. India is undoubtedly one of those places to which, with this Show, we approach in a respectful, colourful way and with that funny touch of Bollywood that makes it even more special.

"INDIA" is a show that seeks to create new sensations among the spectators. The show is made up of **TWO aerial elements, a Ganesha Lotus Flower and a Mandala of Colour**, both equipped with interior light. Next to them are **FIVE gigantic ground elements on carts**: TWO huge elephants (of different colours and shapes), a Sacred Cow, a majestic Bengal Tiger and an impressive Indian Cobra.

Each aerial element is accompanied by two Hindus, one in charge of the control of the aerial and the other to help the aerial. To complete the show there is a group of FIVE extras dressed as Hindus, wearing typical colourful clothes and carrying props with which they will interact with the audience.

There is no doubt that this is a parade that will impress both for its size (the Bengal Tiger 9,5 meters long) and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. There will be special music playing along this unbelievable setting, which will make people immerse themselves in Indian culture.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.

"India" is, in short, an ode to one of the places most dreamt of by travellers and known to the general public.
