SPECTACLE

"BACTERIOLOGICAL MUTATION"

Our company stands out for the constant pursuit of innovation in our shows, and for the surprises and interaction with the public. "Bacteriological Mutation" is born from that desire to achieve new formats and ways to impact the audience, it is a show in which we include two giant aerial elements that will fly over the streets of the parade.

The great scientific Patronus has gone mad after finding a new mutant virus that causes a hysterical compulsion to dance, laugh and have fun. In order to spread it, he has created four giant on-the-ground bacteria, commanded by a satellite bacteria on which he travels with a confetti cannon, ready to launch the green virus at everyone crossing his path.

To monitor anyone can't escape from his evil plan, Patronus has made two giants air bacteriums. They fly over people checking that everyone is infected. If someone isn't infected, Patronus send one of their malefic molecules. Those molecules will tour the streets crashing into the public to infect everybody.

But it won't be easy for Patronus, because the OMS has sent a special Medical Group for detect and control the virus. The Medical Group should check who have come into contact with the virus and provide them with a vaccine for stop the fun symptoms.

Every terrestrial bacterium have a powerful sound equipment with a transmitter and a receiver producing a different atmosphere. There will be special music playing along this unbelievable setting, which will make people immerse themselves in a funny world.

Our parade will show the greatest interaction due to our sensational "Zero-turn" device with an aquatic bacterium on the top. This vehicle have an incredible maneuverability and it can put into the public the fins of the bacterium.

The air elements have inside it big helium-filled balloons thanks to those who can fly high.

"Bacteriological Mutation" is an unique show, able to amaze and amuse to everybody.
