SPECTACLE

"CHRISTMAS, WHITE CHRISTMAS"

Christmas is a special time full of magic and fantasy in which our Father Christmas and his elves will try to spread the joy of his arrival to everyone.

Father Christmas will arrive with his sleigh, full of prop gifts and pulled by 6 wolves. The sleigh has a Segway X2 hidden inside that gives it great mobility, being able to turn and go backwards, conferring it a great realism, as it looks like Father Christmas is actually pulled by wolves.

Accompanying him are 6 Elves, who carry powerful blowing machines, decorated in different colours, which provide an air flow of more than 1500 cubic metres per hour, throwing continuous white paper that will simulate an incredible snowfall. The blowers are also equipped with an air cannon, so that throughout the entire route, in addition to time when it is "snowing", the elves will entertain the audience with their continuous turbulence.

The show is completed by the Goblins' Carriage, equipped with a powerful sound system with a musical soundtrack that will fully immerse the audience into this festive season. On a platform on top of the carriage, is the Chief Elf, who is in charge of operating a powerful confetti turbine that will throw paper and complete the magic feeling of this Show of Elves.

"Christmas, White Christmas" is, in short, a different and interactive show, which will fill the streets with joy and laughter as it goes by.
