SPECTACLE "OCEANIA"

From the depths of the seas comes a colourful and gigantic display of diverse marine life: an octopus, a seahorse, a lobster, a turtle and a spectacular whale; they will be accompanied by a group of entertainers dressed as Fantastic Ocean Creatures, adorned with marine motifs.

One of the main attractions of this parade is the introduction of a "zero-turn" motorised float, with astonishing manoeuvrability that will allow for greater interaction with the audience; it is equipped with a powerful soap-bubble machine that will release thousands of bubbles of different sizes, much to the delight of the little ones.

"Oceanía" is a parade that will impress both for its scale and its innovative sound techniques, as it features a system of transmitters and receivers capable of playing the same lively soundtrack in unison across all of them, producing an immersive sound that will transport the audience into a new world full of fantasy and wonder.

It is worth noting that, as these are inflatable figures mounted on motorised trolleys, they can be quickly and easily folded away if necessary to pass through any area that is too narrow for their size.
