SPECTCALE

"PSYCHEDELIA"

Bright colors, diverse forms, crazy designs ... "Psychedelia" is a show created to cause a great visual impact in the audience, betting on creativity and an innovative vision in each of the elements that form it.

Six inflatable elements that make up the Spectacle: the Periscope Fish, the Flying Heel, the Teapot Peak, the Turtle Elephant, the Tongue Cannon and the Hippopotamus in the Bathtub. Accompanying them is a unique figuration that follows the surrealist line of the inflatable elements. Acompañándolos va una singular figuración que sigue la línea surrealista de los elementos hinchables. Large heads mounted on camouflaged backpacks that, thanks to a system of opening and closing of bellows, make them go up and down, being able to extend towards the assistants.

Each element has been created so that, with the appendices that protrude from them, it can approach the public and hit it to achieve a continuous interaction, increased thanks to the implantation in one of the inflatables of a motorized element of "turn O" of a great maneuverability, that with its turns and movements will amuse the public attacking against him in a continuous way.

There is no doubt that this is a parade that will impress both for its size and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. There will be special music playing along this unbelievable setting, which will make people immerse themselves in a fantastic atmosphere.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.
