SPECTACLE "SENSATIONS"

What if you discover a sixth sense with us?

"SENSATIONS" is a dynamic show, with an exclusive design that will surprise and a commitment to continuous interaction with the audience.

The show is made up of FIVE giant inflatable elements that represent the five senses: smell, taste, sight, touch and hearing. The design of each element is unique, uniting the concept of the sense with nature, which is capable of awakening our five senses in unison. We mixed mosaic illustrations for the skin with extravagant patterns and colours for the leaves and flowers, achieving a multicultural reflection as well as a great visual impact.

There are TWO aerial elements that integrate the Spectacle: Heart and Brain; since it is in them where we receive and process the sensations, being the reflection of them.

The figurine is an essential part of "Sensations", jerseys with different contrasts of patterns and colours, skirts made of leaves that reflect Nature and headdresses with details according to the element they accompany, all of them with an integrated lighting system so that the skirts and headdresses stand out even more at nightfall. In order to involve the public we have designed different types of props: wheelbarrows with inflatable tongues, giant swabs, jumping eyes, "perfume" fumigators and giant hands; with which the figurines will amuse young and old.

The Show is equipped with a sound system of transmitter and receivers capable of making the same soundtrack sound in unison in all the ground elements, producing a surround sound.

It should be noted that, being inflatable elements mounted on motorised trolleys, they can be easily and quickly folded up if necessary to pass through areas that are not suitable for their dimensions.

If you want to see a video of this show you can do so by clicking on the following link:
