SPECTACLE "WONDERLAND"

If you knew time as well as I do, you wouldn't talk about wasting it>>

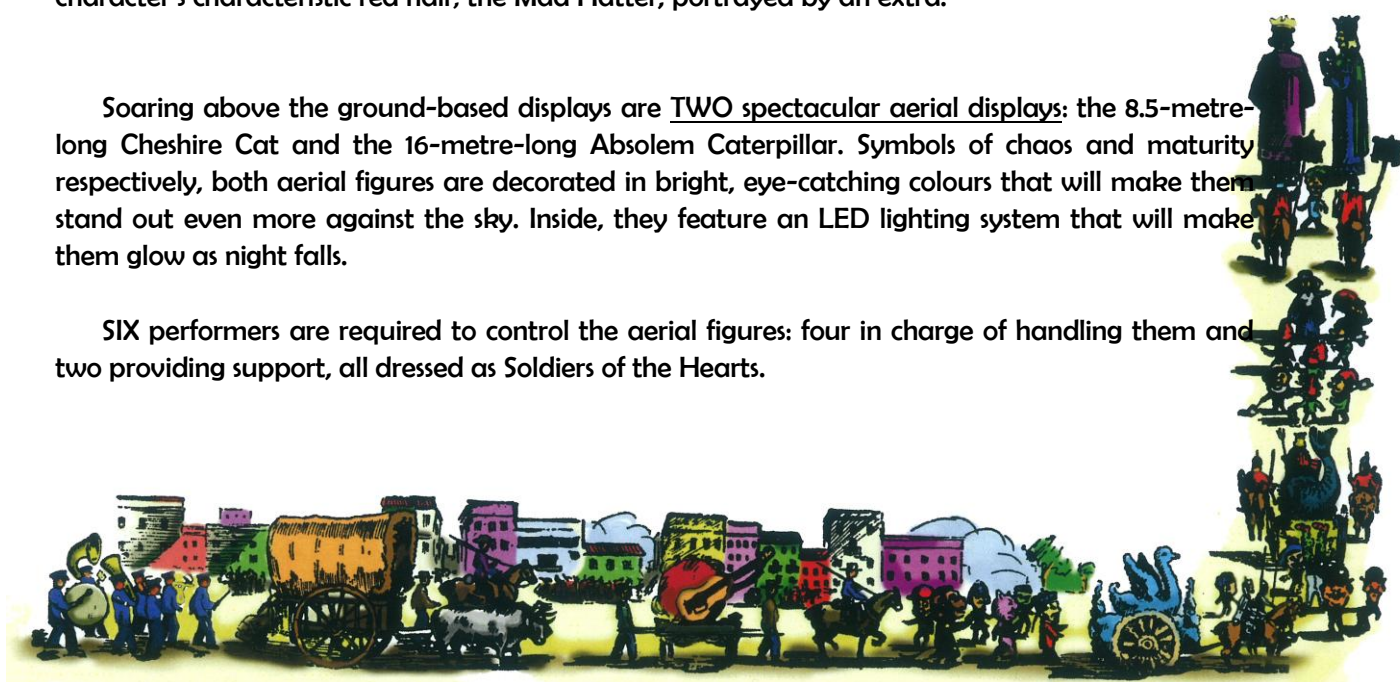

"Wonderland" is a show inspired by Lewis Carroll's famous book "Alice in Wonderland", reflecting the colour, beauty, madness and uniqueness of a world that teaches us, in its own particular way, to face reality.

The show features FOUR giant terrestrial elements, each carrying one of the novel's key characters:

- The Element of Fantasy, designed to combine the mushrooms that make Alice grow and shrink with the famous biscuit bearing the slogan "EAT ME". A performer dressed as Alice stands atop it.
- The Time Element, created with the design of a pocket watch alluding to the character standing upon it, the White Rabbit (played by an extra), who is constantly thinking he is always late for everything.
- Castle Element, created with a design combining the parapet of a tower, falling hearts, and a giant heart in front of which stands a performer dressed as the Queen of Hearts.
- Madness Element, created with the design of a gigantic top hat featuring a tangle of the character's characteristic red hair; the Mad Hatter, portrayed by an extra.

Soaring above the ground-based displays are TWO spectacular aerial displays: the 8.5-metre-long Cheshire Cat and the 16-metre-long Absolem Caterpillar. Symbols of chaos and maturity respectively, both aerial figures are decorated in bright, eye-catching colours that will make them stand out even more against the sky. Inside, they feature an LED lighting system that will make them glow as night falls.

SIX performers are required to control the aerial figures: four in charge of handling them and two providing support, all dressed as Soldiers of the Hearts.

Primera Casa en presentación de Cabalgatas Históricas de Reyes Magos, Carnavales, para reaperturas patronales y de Ferias con Gigantes y Cabezudos - Todas las temporadas variedad de figuras, modelos exclusivos de gran efecto comico

The show is rounded off by a fabulous group of ground-level performers who will interact with the audience continuously, entertaining them with their gags and pantomimes, faithfully reflecting the characters they embody: the March Hare, the White Queen, the Tweedledum and Tweedledee twins, and the Hatter and Hattress.

The costumes for all the characters have been designed and handcrafted using fabrics of various types and colours, with meticulous attention to every detail, resulting in a show of great visual impact on every level.

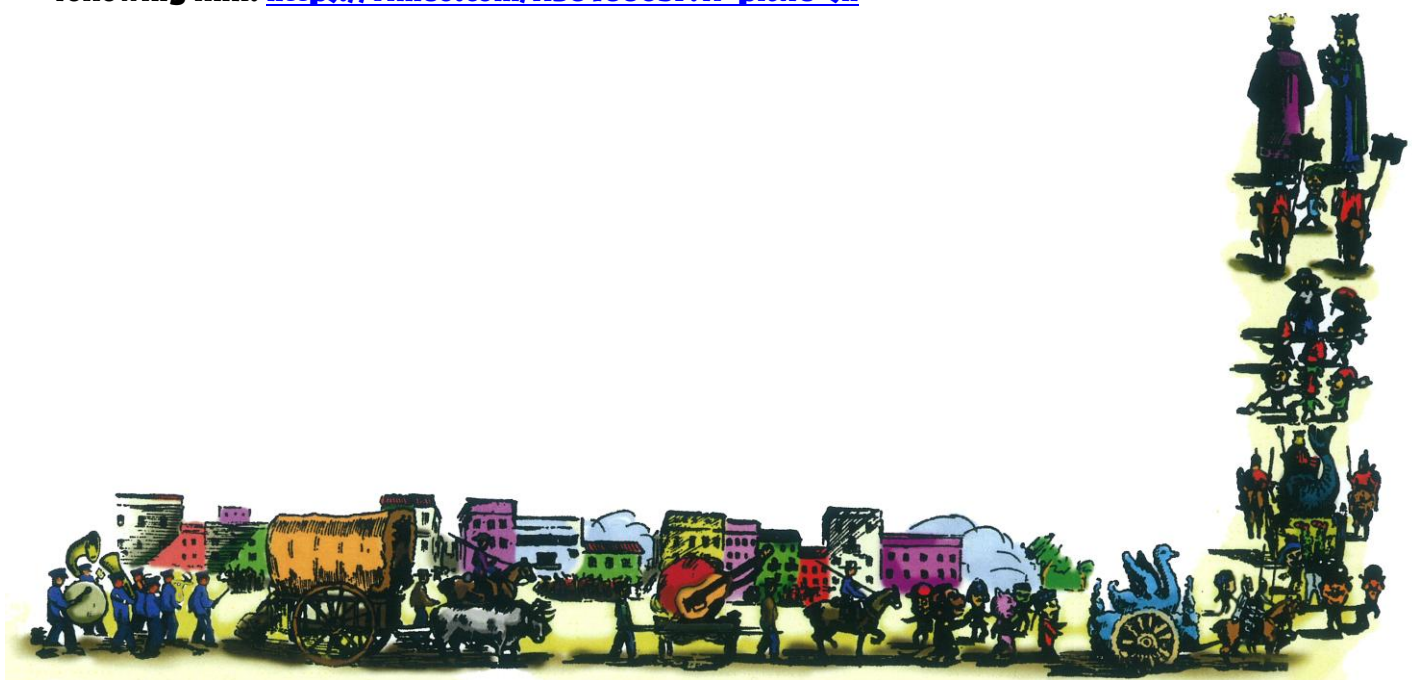

The characters are brought to life using high-quality wigs and accessories, along with professional make-up that completely transforms them.

"Wonderland" incorporates a transmitter and receiver sound system that plays the same soundtrack across all the stage elements, creating a surround sound experience that transports the audience to another reality

It is worth noting that, as these are inflatable structures, they can be quickly and easily deflated to pass through areas that are too narrow for their size.

"Wonderland" is a celebration of fantasy, fun and spectacle, full of little details that make it a unique, one-of-a-kind and exceptional show.

You can watch a video of the show without aerial elements by clicking on the following link: <https://vimeo.com/115646603?fl=pl&fe=;h>
